

ALPHA LIBRA LLC

Tripnovac | EZTaxNG | Mami African Hub | Miraluc

PATHWAY A

Verified User Acquisition Agent Programme

This is a limited independent campaign opportunity for people who can help Alpha Libra grow real, verified users across Tripnovac, EZTaxNG, Mami African Hub, and Miraluc.

2 months

campaign duration

15/day

correct daily benchmark

450

full monthly milestone

2+ brands

minimum per counted user

What You Would Do

Daily acquisition

Speak with real people in your network, community, school, group, business circle, or online audience and help them sign up through your assigned link, code, or form.

Multi-brand activation

Each counted user must sign up for at least 2 of the 4 priority brands. Strong agents should aim for all 4 when the user profile genuinely fits.

Clean reporting

Submit daily records with the user source, date, brand signups, and proof required for verification.

Honest explanation

Use only approved descriptions. Do not promise jobs, income, visas, tax outcomes, betting wins, or guaranteed app results.

Payout Structure

Milestone	Requirement	Payout	Notes
Fallback milestone	300 approved verified users in a 30-day cycle	NGN 30,000	Paid only after verification and approval.
Full milestone	450 approved verified users in a 30-day cycle	NGN 50,000	15 approved verified users per day for 30 days equals 450.
Top-up rule	If you first reach 300 and later reach 450 in the same cycle	NGN 20,000 top-up	Total cycle payout is NGN 50,000, not NGN 80,000.
Two-cycle maximum	450 approved users in both monthly cycles	Up to NGN 100,000	No extra cash bonus is promised unless approved in writing.

What Counts As A Verified User

- A real person, not a fake, bought, forced, duplicated, or test signup.
- Unique phone/email identity where required by the verification process.

- Attributed through your assigned agent ID, link, code, form, or tracker.
- Signed up to at least 2 of the 4 priority Alpha Libra brands.
- Visible in Alpha Libra's tracker, backend, admin records, or approved verification sheet.
- Obtained through lawful, honest, non-spam outreach.

All-4 Brand Performance

Agents who consistently onboard users into all 4 brands may be considered for non-cash benefits such as training, app access, certificates, recommendation letters, recognition, templates, and priority consideration for future paid work. This is not a job guarantee and is not an automatic cash bonus.

What We Look For

Network access

You can reach real people through trusted communities, groups, campuses, SMEs, creators, or local networks.

Daily discipline

You can work consistently, submit reports, and respond to audit questions quickly.

Clean communication

You can explain apps honestly without exaggeration, pressure, or false claims.

Bottom line: This programme rewards verified growth, not noise. If a user is not real, tracked, unique, and approved, the user will not count.
